

WE GIVE A

ABOUT PARKINSON'S

DEAR MR. PRESIDENT,

IN 1938, FDR AND MILLIONS OF AMERICANS LED A MARCH
OF DIMES TO END POLIO.

TODAY, PARKINSON'S IS THE WORLD'S FASTEST GROWING
BRAIN DISEASE, AFFECTING 1.2 MILLION AMERICANS.

WE GIVE A DIME ABOUT
PARKINSON'S, AND TOGETHER WE CAN END IT

HOW?

1

BAN PARAQUAT, CHLORPYRIFOS AND TRICHLOROETHYLENE

THESE CHEMICALS ALL INCREASE THE RISK
OF PARKINSON'S.
LIKE OTHER COUNTRIES, THE U.S. SHOULD
BAN THESE SUBSTANCES.

2

MAKE MEDICARE'S COVERAGE OF TELEMEDICINE PERMANENT

COVID-19 HAS SHOWN US THAT
TELEMEDICINE IS FEASIBLE, EFFECTIVE
AND CONVENIENT. LET'S KEEP IT
ACCESSIBLE.

3

INCREASE PARKINSON'S RESEARCH FUNDING TEN-FOLD

OVER THE PAST DECADE,
INFLATION-ADJUSTED NIH FUNDING FOR
PARKINSON'S HAS DECREASED, WHILE THE
NUMBER OF AMERICANS WITH THE DISEASE
HAS INCREASED 35%.

WHY I GIVE A

ABOUT PARKINSON'S
